Subject: Referred to Region - Maryland Recipient: Regional Tip and/or Complaint	HQ Lead Number: FY18-174423-3714-CV Ref. Lead Number: Case Number:	Message Referred To: State Credible Threat: Priority Term: Language:	Lead Status: Lead Closed Lat: Lon: Category:

Tip/Complaint:
Off of Red Oak Rd. Mettiki Coal has there reclamation area where they pile coal waste and other by products. Next to this area are wind mills. The wind mill operator has had issues the last few years with corrosion and damage caused by air laden with acidic and other corrosive elements. The air quality was monitored by the windmill operator and found to be quite nasty. There are homes in the immediate area. We the residents of the area experience foul air and different smells off and on. If this air contains contaminants that destroy windmill equipment. Common sense says that it is not healthy for residents in the nearby areas. In closing we the residents were here long before Mettiki and our Health and Well Being should come First.

Tip/Complaint:

Not keeping debri off roads and perimeter areas. Coal cleaning water tanks leaking water that runs into stream that feeds into Potomac River. They are not complying with current regulations that they are required to be doing.
